## PROFESSIONAL SUMMARY

Full-Stack Software Engineer with expertise in React.js, Next.js, Node.js, and MySQL. Currently pursuing a BSc in Software Engineering and experienced in building web applications and CRM systems. Strong problem-solving skills, self-learner, and eager to contribute to innovative projects.

## WORK EXPERIENCE

### Full-Stack Software Engineer

Lakion | Gampaha (10/2023 - 01/2024 )

- Worked with a CRM system using Next.js, Prisma, and MySQL
- Goal was to complete that task during the internship
- Successfully completed the task

### Software Engineer Intern

FlexyCode | Gampaha (02/2023 - 08/2023)

- Used MERN stack technology to implement a system's frontend.
- Learned HTML, CSS, JavaScript, and React.js as the main languages.
- Gained experience with Node.js and Express.js as additional technologies.

## PROJECTS

### ARTIK

- As the Frontend Developer, I spearheaded the creation of ARTIK, a collaborative project using HTML, CSS, Tailwind CSS, and Next.js. It allows users to register, view art, update user details, and log out of the site.

### Blog Website System

- As the Frontend Developer, I spearheaded the creation of Blog Site, a collaborative project utilizing HTML, CSS, Tailwind CSS, and Next.js. The site allows users to register, log in, create memorials, update user details, delete memorials, and log out.

### KPDEV Portfolio

- I designed and developed my portfolio website. You can visit the site, download my CV, see the projects I have done, and contact me via email. I added these functionalities to the website. I used React.js, Emails, and Tailwind CSS technologies for the website.

### Lab Appointment System

- I developed a lab appointment system, only the front end. It had a dashboard and a user dashboard. Users can register and successfully log in to their user role pages. (A User can register as a user and log in to the user account.) Admins can add the admin role only. They can't register on the page.

### Quiz App

- I developed a Simple Quiz app using React.js and CSS. The user can skip the quiz and submit another quiz. Finally, the user can see the wrong and correct answers and be fully aware of the overall results. Also, see the results of the submitted.

## EDUCATION

**Bachelor of Software Engineering, Computer Software Engineering (Following)**  
ICBT Campus 2024/05 - 2025/05

**Higher Diploma in Computing and Software Engineering (Completed)**  
Cardiff Metropolitan University 2022/02 - 2024/02
